Subject: MSFT trials

Come on! end this crap! Stop wasting the voters money.

The clintons are gone to create their own kind of hell in NY, even though she is still in dc. The DOJ under the goofiest politicized AG for the past 100 years under orders by the clintons in order to drive contributions to slick hilly and Mr. Gore went after MSFT in order to attack the biggest muck in the tech space, help their \$ raising from the tech cos, and hopefully keep the Republicans out of the White House so they would not be prosecuted for all of their crookedness.

Being in league with and prompted by Ellison, who arrogantly wanted to be the richest man in the world, only adds to the injustice.

Tell the state A's G to get lost with their political ambitions also. The CA AG is another Ellison tool.

The deal is cut, it seems reasonable, and seems to address the problem.

IF NOT GO AFTER ELLISON - he is a monopoly in the DB sector and it was even worse during the period covered by the MSFT suit.

The DOJ is not supposed to be the business bludgeon of a private citizen and a crooked politician. That was supposed to be banned 50 years ago.

And I'm a Democrat. Imagine what I would think if I were not one.
